FITTED

BESPOKE

The ultimate fitted wardrobe buying guide.

Plan your room. Compare quotations. Buy with confidence.

YOUR SPACE. YOUR STYLE. YOUR DESIGN.

PLANNING

Start with your room.

Good design begins with a clear picture of the space and your everyday storage needs.

☐ Measure approximately

Record wall width, ceiling height and available depth at several points. Final approved measurements are required before manufacture.

☐ Identify obstructions

Note skirting, slopes, radiators, sockets, vents, chimney breasts and the access route to the room.

☐ Choose your priorities

Consider long hanging, double hanging, drawers, shelves and shoes. Check how far the doors and drawers need to open.

☐ Collect inspiration

Bring photographs, colours and examples of styles you love. Discuss what is realistically compatible with your room.

SPECIFICATION

Compare like for like.

A low headline price may not include everything your design requires.

☐ Cabinet construction

Ask whether backs, sides, bases and tops are included. Confirm any exceptions for angled units.

☐ Doors and hardware

Check door material, finish, handle specification, hinges and sliding track requirements.

☐ Interior storage

Confirm exactly how many rails, shelves and drawers are included, and whether accessories are optional.

☐ Delivery and installation

Check whether delivery is kerbside or to the room, who unloads, and whether fitting or on-site finishing is quoted separately.

☐ Warranty and aftercare

Read written coverage, exclusions and component terms. Ask how damaged or missing parts are dealt with.

☐ Final price

Check the full written quotation, including applicable taxes and any separately charged work, before approving.

NEXT STEPS

Make it personal.

Your wardrobe should be a design that suits your home, not just a list of components.

Before you approve your design

- [ ] **Review the layout**

  Confirm the drawings, finish, dimensions, storage arrangement and any room-specific details.

- [ ] **Agree the arrangements**

  Confirm delivery, fitting, lead time and payment terms in writing.
